

# DCN-SWPV-E Parliamentary voting license

www.boschsecurity.com

**BOSCH**  
Invented for life

- ▶ Complete operator control of parliamentary voting sessions
- ▶ Extensive motion preparation facilities
- ▶ Output voting results to printers
- ▶ Wide range of vote-related parameter options

The DCN-SWPV-E Parliamentary voting license is a software module designed to control and to prepare parliamentary voting.

## Functions

Vote preparation

## Applications

The software covers a number of functions including vote preparation, specifying vote-related parameters, and starting and controlling voting. In the configuration application voting is prepared as in the operator application the voting can be started and results can be shown.

## Voting

Voting is an optional part of every agenda entry. Voting can consist of a number of proposals or motions, each of which will be voted on. The preparation of the voting is done in two steps. First a template needs to be defined. The template contains more general settings like automatic print, secret, majority and many more. Secondly a single vote can be created. Now the number, name subject, template and answer set must be defined. Also a link to a document can be defined which can be activated from the operator application. This document can be used as extra information for a specific vote.

Voting template

**Operator**

The operator selects the desired vote from the prepared voting list and starts the vote; participants can use their units to register votes. The operator has full control over the voting procedure, and can stop or suspend a vote at any time. It is also possible to start a vote which is not prepared before (ad-hoc voting).

**Display**

The software program offers the possibility of displaying cast answers and the final result of a vote on the PCs screens. Optional delegate units with a

display facility can display the vote results. There is also a facility of automatically print-out the vote results once the vote is completed.

**Parts included**

Quantity	Component
1	E-mail with license activation information

**Technical specifications**

DCN NG: DCN-SW-E	DCN-SW-E is required before you can use this license
------------------	--
