FMM-100DAT2CK-B Dual-action, Die-cast Metal Manual Station (blue)

www.boschsecurity.com

BOSCH
Invented for life

- Terminal connections
- Gold-plated alarm contacts for corrosion resistance
- Surface back box

The FMM-100DAT2CK-B is a high-quality, metal manual station in blue. This dual-action manual station comes with a key lock and contains gold-plated contacts to resist corrosion.

Functions

Operation
With the dual-action configuration the upper bar on the front of the manual station rotates inward allowing the activation bar to be grasped and operated by a single hand. When the lower bar on the front of the manual station (the activation bar) is pulled, it latches open and is easily visible from 50 ft (15 m). Reset the activation bar by opening the manual station with the key and placing the activation bar in its normal upright position. An optional scored acrylic break rod is available.

Certifications and approvals

Region	Certification	
USA	UL	UNIU: Boxes, Non-Coded (UL38), UNIU7: Boxes, Non-Coded Certified for Canada (cULus)

Installation/configuration notes

Compatibility Information
The manual station is compatible with all Bosch Security Systems, Inc. Fire Alarm Control Panels.

Mounting Considerations
The manual station can be surface mounted on the FMM-100BB-B Surface-mount Back Box (blue) or flush mounted on a standard single-gang back box.
To comply with ADA standards, the manual station must be less than 48 in. (1.2 m) above the floor for front wheelchair access and less than 54 in. (1.3 m) above the floor for side wheelchair access.

Parts included

The following parts are provided with each manual station in the FMM-100 series:

Quant.	Component
1	Manual station
1	D102 Key (1358 key)
1	FMM-100GR Acrylic Break Rod
