The HD indoor dome cameras from Bosch are professional surveillance cameras that provide high quality HD images for demanding security and surveillance network requirements. These domes are true day/night cameras offering excellent performance day or night.

There is a version with a built-in active infrared illuminator that provides high performance in extreme low-light environments.

**System overview**

**Easy to install stylish indoor dome**

Ideal for indoor use, the stylish design is suitable for installations where appearance and flexible coverage are important. The varifocal lens allows you to choose the coverage area to best suit your application. Using the proprietary pan/tilt/rotation mechanism, installers can select the exact field of view. Mounting options are numerous, including surface, wall, and suspended-ceiling mounting.

The automatic zoom/focus lens wizard makes it easy for an installer to accurately zoom and focus the camera for both day and night operation. The wizard is activated from the PC or from the on-board camera push button making it easy to choose the workflow that suits best.

**Functions**

**Intelligent Dynamic Noise Reduction reduces bandwidth and storage requirements**

The camera uses Intelligent Dynamic Noise Reduction which actively analyzes the contents of a scene and reduces noise artifacts accordingly.

The low-noise image and the efficient H.264 compression technology provide clear images while reducing bandwidth and storage by up to 50% compared to other H.264 cameras. This results in reduced-bandwidth streams that still retain a high image quality and smooth motion. The camera provides the most usable image possible by cleverly optimizing the detail-to-bandwidth ratio.
Area-based encoding
Area-based encoding is another feature which reduces bandwidth. Compression parameters for up to eight user-definable regions can be set. This allows uninteresting regions to be highly compressed, leaving more bandwidth for important parts of the scene.

Bitrate optimized profile
The average typical optimized bandwidth in kbits/s for various image rates is shown in the table:

<table>
<thead>

Multiple streams
The innovative multi-streaming feature delivers various H.264 streams together with an M-JPEG stream. These streams facilitate bandwidth-efficient viewing and recording as well as integration with third-party video management systems. Depending on the resolution and frame rate selected for the first stream, the second stream provides a copy of the first stream or a lower resolution stream. The third stream uses the I-frames of the first stream for recording; the fourth stream shows a JPEG image at a maximum of 10 Mbit/s.

Regions of interest and E-PTZ
Regions of Interest (ROI) can be user defined. The remote E-PTZ (Electronic Pan, Tilt and Zoom) controls allow you to select specific areas of the parent image. These regions produce separate streams for remote viewing and recording. These streams, together with the main stream, allow the operator to separately monitor the most interesting part of a scene while still retaining situational awareness.

Built-in microphone, two-way audio and audio alarm
The camera has a built-in microphone to allow operators to listen in on the monitored area. Two-way audio allows the operator to communicate with visitors or intruders via an external audio line input and output. Audio detection can be used to generate an alarm if needed. If required by local laws, the microphone can be permanently blocked via a secure license key.

Tamper and motion detection
A wide range of configuration options is available for alarms signaling camera tampering. A built-in algorithm for detecting movement in the video can also be used for alarm signaling.

Storage management
Recording management can be controlled by the Bosch Video Recording Manager (VRM) or the camera can use iSCSI targets directly without any recording software.

Edge recording
The MicroSD card slot supports up to 2 TB of storage capacity. A microSD card can be used for local alarm recording. Pre-alarm recording in RAM reduces recording bandwidth on the network, or if microSD card recording is used — extends the effective life of the storage medium.

Cloud-based services
The camera supports time-based or alarm-based JPEG posting to four different accounts. These accounts can address FTP servers or cloud-based storage facilities (e.g., Dropbox). Video clips or JPEG images can also be exported to these accounts. Alarms can be set up to trigger an e-mail or SMS notification so you are always aware of abnormal events.

Easy installation
Power for the camera can be supplied via a Power-over-Ethernet compliant network cable connection. With this configuration, only a single cable connection is required to view, power, and control the camera. Using PoE makes installation easier and more cost-effective, as cameras do not require a local power source.

The camera can also be supplied with power from +12 VDC power supplies.
For trouble-free network cabling, the camera supports Auto-MDIX which allows the use of straight or cross-over cables.

True day/night switching
The camera incorporates mechanical filter technology for vivid daytime color and exceptional night-time imaging while maintaining sharp focus under all lighting conditions.

Hybrid mode
An analog video output enables the camera to operate in hybrid mode. This mode provides simultaneous high resolution HD video streaming and an analog video output via an SMB connector. The hybrid functionality offers an easy migration path from legacy CCTV to a modern IP-based system.

Access security
Password protection with three levels and 802.1x authentication is supported. To secure Web browser access, use HTTPS with a SSL certificate stored in the camera.
Complete viewing software
There are many ways to access the camera’s features: using a web browser, with the Bosch Video Management System, with the free-of-charge Bosch Video Client or Video Security Client, with the video security mobile app, or via third-party software.

Video security app
The Bosch video security mobile app has been developed to enable Anywhere access to HD surveillance images allowing you to view live images from any location. The app is designed to give you complete control of all your cameras, from panning and tilting to zoom and focus functions. It’s like taking your control room with you.
This app, together with the separately available Bosch transcoder, will allow you to fully utilize our dynamic transcoding features so you can play back images even over low-bandwidth connections.

System integration
The camera conforms to the ONVIF Profile S, ONVIF Profile Q and ONVIF Profile G specifications. Compliance with these standards guarantees interoperability between network video products regardless of manufacturer.
Third-party integrators can easily access the internal feature set of the camera for integration into large projects. Visit the Bosch Integration Partner Program (IPP) website (ipp.boschsecurity.com) for more information.

Certifications and approvals

HD standards
Complies with the SMPTE 274M-2008 Standard in:
- Resolution: 1920x1080
- Scan: Progressive
- Color representation: complies with ITU-R BT.709
- Aspect ratio: 16:9
- Frame rate: 25 and 30 frames/s
Complies with the SMPTE 296M-2001 Standard in:
- Resolution: 1280x720
- Scan: Progressive
- Color representation: complies with ITU-R BT.709
- Aspect ratio: 16:9
- Frame rate: 25 and 30 frames/s

Technical specifications

Power
- Input voltage: +12 VDC or Power-over-Ethernet (48 VDC nominal)
- Power consumption:
  - 3.8 W max. (IR version)
  - 6.3 W max. (IR version)
- PoE: IEEE 802.3af (802.3at Type 1)
  - Power level: Class 2
### Sensor
- **Sensor type**: 1/2.7-inch CMOS
- **Total sensor pixels**: 1952 x 1092 (2MP)

### Video performance - Sensitivity
- **Sensitivity – (3200K, reflectivity 89%, F1.3, 30IRE)**
  - Color: 0.24 lx
  - Mono: 0.05 lx
  - With IR: 0.0 lx

### Video performance - Dynamic range
- **Dynamic range**: 76 dB WDR

### Video streaming
- **Video compression**: H.264 (MP); M-JPEG
- **Video streaming**: Multiple configurable streams in H.264 and M-JPEG, configurable frame rate and bandwidth. Regions of Interest (ROI)
- **Overall IP Delay**: Min. 120 ms, Max. 340 ms
- **GOP structure**: IP, IBP, IBBP
- **Encoding interval**: 1 to 30 [25] fps
- **Encoder regions**: Up to 8 areas with encoder quality settings per area

### Video resolution (H x V)
- **1080p HD**: 1920 x 1080
- **720p HD**: 1280 x 720
- **D1 4:3 (cropped)**: 704 x 480
- **SD upright (cropped)**: 400 x 720
- **480p SD**: Encoding: 704 x 480; Displayed: 854 x 480
- **432p SD**: 768 x 432
- **288p SD**: 512 x 288
- **240p SD**: Encoding: 352 x 240; Displayed: 432 x 240
- **144p SD**: 256 x 144

### Video functions
- **Day/Night**: Color, Monochrome, Auto
- **Adjustable picture settings**: Contrast, Saturation, Brightness
- **White Balance**: 4 automatic modes, manual mode and measure

### Video functions - Shutter
- **Automatic Electronic Shutter (AES)**; Fixed (1/12 to 1/15000) selectable; Default shutter

### Video functions - Backlight compensation
- **On/off**

### Video functions - Noise reduction
- **Intelligent Dynamic Noise Reduction with separate temporal and spatial adjustments**

### Video functions - Contrast enhancement
- **On/off**

### Video functions - Sharpness
- **Sharpness enhancement level selectable**

### Video functions - Intelligent defog
- **Intelligent Defog automatically adjusts parameters for best picture in foggy or misty scenes (switchable)**

### Video functions - Privacy Masking
- **Eight independent areas, fully programmable**

### Video functions - Video Analysis
- **MOTION+**

### Other functions
- **Image mirror, Image flip, Pixel counter, Video watermarking, Display stamping, Scene modes, Location**

### Night vision (IR version only)
- **LED**: 10 LED high efficiency array, 850 nm
- **IR intensity**: Adjustable
- **Distance**: 15 m (50 ft)

### Optical
- **Lens type**: 3 to 10 mm Varifocal, DC Iris F1.3 – 360, IR corrected
- **3 to 10 mm Automatic Varifocal (AVF), DC Iris F1.3 – 360, IR corrected**
- **Lens mount**: Board mounted
- **Horizontal field of view**: 36° - 117°
- **Vertical field of view**: 20° - 61°
- **Adjustment**: Motorized zoom/focus (AVF version)
- **Iris control**: Automatic iris control
- **Day/Night**: Switched mechanical IR filter

### Input/output
- **Analog video out**: SMB connector, CVBS (PAL/NTSC), 1 Vpp, 75 Ohm
- **Audio line in**: 0.707 Vrms max, 10 kOhm typical, jack connector
- **Audio line out**: 0.707 Vrms at 16 Ohm typical, jack connector
- **Audio input**: Built-in microphone (can be permanently disabled)

### Ordering Information

**FLEXIDOME IP indoor 5000 HD**
Professional IP dome camera for indoor HD surveillance. Varifocal 3 to 10 mm f1.3 lens; IDNR; day/night; H.264 quad-streaming; cloud services; motion/tamper/audio detection; microphone; 1080p
Order number NIN-51022-V3

**FLEXIDOME IP indoor 5000 IR**
Professional IP dome camera for indoor HD surveillance. Varifocal 3 to 10 mm f1.3 lens; IDNR; day/night; H.264 quad-streaming; cloud services; motion/tamper/audio detection; microphone; 1080p; infrared
Order number NII-51022-V3

**FLEXIDOME IP indoor 5000 HD**
Professional IP dome camera for indoor HD surveillance. Automatic Varifocal 3 to 10 mm f1.3 lens; DC iris; IDNR; day/night; H.264 quad-streaming; cloud services; motion/tamper/audio detection; microphone; 1080p
Order number NIN-50022-A3

**FLEXIDOME IP indoor 5000 IR**
Professional IP dome camera for indoor HD surveillance. Automatic Varifocal 3 to 10 mm f1.3 lens; DC iris; IDNR; day/night; H.264 quad-streaming; cloud services; motion/tamper/audio detection; microphone; 1080p; infrared
Order number NII-50022-A3
### Accessories

**NDA-LWMT-DOME Dome Wall Mount**  
Sturdy wall L-shaped bracket for dome cameras  
Order number NDA-LWMT-DOME

**NDA-ADTVEZ-DOME Dome Adapter Bracket**  
Adapter bracket (used together with appropriate wall or pipe mount, or surface mount box)  
Order number NDA-ADTVEZ-DOME

**VEZ-A2-WW Wall Mount**  
Wall mount (Ø145/149 mm) for dome cameras (use together with appropriate dome adapter bracket); white  
Order number VEZ-A2-WW

**VEZ-A2-PW Pipe Mount**  
Pendant pipe mount (Ø145/149 mm) for dome cameras (use together with appropriate dome adapter bracket); white  
Order number VEZ-A2-PW

**LTC 9213/01 Pole Mount Adapter**  
Flexible pole mount adapter for camera mounts (use together with the appropriate wall mount bracket). Max. 9 kg (20 lb); 3 to 15 inch diameter pole; stainless steel straps  
Order number LTC 9213/01

**NDA-FMT-DOME In-ceiling mount**  
In-ceiling flush mounting kit for dome cameras (Ø157 mm)  
Order number NDA-FMT-DOME

**NDA-ADT4S-MINDOME 4S Surface Mount Box**  
Surface mount box (Ø145 mm / Ø5.71 in) for dome cameras (use together with the appropriate dome adapter bracket).  
Order number NDA-ADT4S-MINDOME

**Monitor/DVR Cable SMB 0.3M**  
0.3 m (1 ft) analog cable, SMB (female) to BNC (female) to connect camera to coaxial cable  
Order number NBN-MCSMB-03M

**Monitor/DVR Cable SMB 3.0M**  
3 m (9 ft) analog cable, SMB (female) to BNC (male) to connect camera to monitor or DVR  
Order number NBN-MCSMB-30M

**NPD-5001-POE Midspan PoE Injector**  
Power-over-Ethernet midspan injector for use with PoE enabled cameras; 15.4 W, 1-port  
Order number NPD-5001-POE

**NPD-5004-POE Midspan PoE Injector**  
Power-over-Ethernet midspan injectors for use with PoE enabled cameras; 15.4 W, 4-ports  
Order number NPD-5004-POE
